Abstract:

This paper deals with to compile the the directory of different academic institutions in Latur city. Here researcher consulted the list of all academic institutions issued dy University & Department of Education, Zillah Parishad, Government of Maharashtra, Swami Ramanand Teerth Marathwada University Nanded

Keywords: Compilation, Academic Institutions, Directory.

Introduction :

Information is the product of human action. Information is incessantly produced by various agencies in this post industrial information age. The information should be put into proper use for socio-economic, cultural and scientific development of the country. A country , which is rich in information , is rich in its socio-economic spheres. Directories are helpful in many fields. Reference librarian takes necessary help of directories to answer the queries of the readers / users. Directory as clear from its name, work for direction. There are directions in directories which are useful for research work and general information's. Such directions may be related to persons, groups of persons, branches, clubs, hotels, etc. Directories have an index of persons and institutions.

Review of Related Literature:

There is number of studies related with the previous studies and literature on directories. It includes books, journal articles, proceedings, dissertations & theses, online articles on internet etc. Not a single study was found related to the academic institution's directory; the investigator has considered various studies carried out to evaluate directories among other types and subjects too.Business Directory, New York; free public Library,(1934)Directory of Directories, London; Business Pub., (1950),American Library Directory, New York; Bowker, (1996),International Literary Market Places, New York: R.R.Bowker, (1967),London Directory and International Register of Manufacturers, London: Directory Co., (1967)Times of India Directory and Yearbook. Bombay: Bennett Coleman,(1915),Indian Trade Directory, Bombay: International Trade Centre, (1946),Indian Oilseeds Directory, New Delhi: ICAR, (1963) Tea Directory, Calcutta: Tea Board, (1966).

Objectives of the study:

1. To compile the information of Names, Addresses, Telephone numbers, Web addresses, e-mails of the academic institutions/organizations and their offices/services, etc. working in Latur city.
2. To compile the Courses available in academic institutions.
3. To compile the Medium, Status and Type of academic institutions.
4. To compile the academic & educational information's about the Latur city.

Hypothesis of the study:

1. Latur is a metropolitan city with more academic institutions.
2. All institution having excellent academic courses.
3. Academic institution offers various types, status and medium of professional courses.

Research Methodology:

This chapter deals with the method adopted "A Study of Compilation of academic institutions directory in Latur city . The data has been gathered for Compilation of Academic Institution's Directory of Latur City, i.e. Technological, Social, Economical, Political, Cultural, Scientific, Developmental, etc. for testing the hypothesis. Survey approach has been adopted, using questioning tool as a method of gathering data. Data has been gathered through a questionnaire, unstructured interview and diary keeping method.

Scope & Limitation of Study:

The study has been limited to only Academic Institutions in Latur city registered till 2019. Within the jurisdiction of Latur City Municipal Corporation, Latur only.

Data Analysis And Interpretation:

To compilation of directory of academic institution in latur city, A questionnaire was designed for collection of data.

Total 637 questionnaires were distributed out of which 119 questionnaires were sent to higher learning institutions and 518 questionnaires were sent to lower learning institutions. The questionnaire was distributed in the month of .April 2017. Respondents were given one month time to complete it and send it back to the research. After persistent follow up and personal visit of respondents to the institutes concerned 69 (50 %) questionnaires from higher learning institutes respondents and 446 (86 %) questionnaires from lower learning institute's respondents were received. Total 515 (80.84%) questionnaires were received. This analysis is based on these questionnaires.

This study finds out some of the Tables, Indexes, Annexure of institutions in Latur city. Following This study finds out some of the Tables, Indexes, Annexure of institutions in Latur city. Following tables are showed the details of founded data during the st;udy:are showed the details of founded data during the study:

Table no:1

Category wise Institutions

Sr. No.	Category of Institutions	No of Institutions
1	Lower Learning Educations	446
2	Higher Learning Educations	69
	Total	515

As per above mentioned two categories of education, investigator sorted and analyzed the data in broadly two categories. It showed in following table:

Table No : 2

Types of Education
